

Press Release

FABRICK AT THE SALONE DEI PAGAMENTI 2021 TO TELL ABOUT THE IMPACT OF OPEN FINANCE ON FINANCIAL SERVICES

The revolution underway no longer involves only the world of banking but also all other industries, giving rise to new business models and market dynamics.

Fabrick - Main Partner of the event - will also be present with a virtual stand with demos of solutions and products.

Milan, 29 October 2021 - Also this year **Fabrick** renews its participation as Main Partner of **the Salone dei Pagamenti 2021** - an event promoted by ABI and organized by **ABISERVIZI**, which will take place in digital mode from 3 to 5 November.

Fabrick - a company that operates at an international level to promote Open Finance - will talk about the now unstoppable impact of open finance and the new business models and market dynamics to which this revolution is giving rise.

Paolo Zaccardi, CEO of Fabrick, will participate in the panel "Le sfide dell'opentech tra innovazione e sostenibilità" (The challenges of opentech between innovation and sustainability) that will take place in the plenary session on 4 November at 9.30 am.

This will be followed by the Fabrick workshop "**How open banking and open payments enable embedded finance**". The appointment, moderated by Andrea Cabrini, consists of 2 round tables:

- "**Banking as a service, a strategic choice**" to be attended by Paolo Zaccardi CEO and co-founder of Fabrick, Javier Lipúzcoa Executive Director, Head of Digital Banking Italy at BBVA, and Andrea Tessera, Director of Banking as a service at Banca Sella.
- "**Open payments & open innovation: the evolution of business models in the insurance sector**" will be attended by Fabio Simonutti Senior Business Developer at Fabrick, Giacomo Lovati, Chief Beyond Insurance Officer at UnipolSai Assicurazioni Spa, Francesco Merzari, Managing Director at SIA S.p.A Servizi di Informatica Assicurativa, and Fabio Pittana, Chief Operating Officer at Net Insurance..

The other appointments that will see Fabrick involved are:

- November 3rd at 11.30, "**Open Finance Management**" session
- November 5th at 9.30, session "**Corporate Payments: current scenario and expected developments**".

During the 3 days of the event it will be possible to visit the virtual stand to meet with the team that designs and implements projects and solutions for the platform and learn more about Fabrick's offerings.

Fabrick ecosystem's realities will also be protagonists at the Payments Exhibition

Fintech District - the community of reference for fintech in Italy - will be a partner of the event, will have a digital stand and will hold a series of speeches aimed at highlighting the role of fintech in the phase of extraordinary change we are experiencing:

- November 3 at 11.30 am, session "The opportunities of the FIN+TECH Accelerator for the Italian ecosystem: presentation of the initiative and discussion among operators on the roadmap to between grow the Italian fintech and insurtech.
- November 5 at 9.30, session "Buy now pay later: a focus with the community of the Fintech District".
- November 5 at 10.30 am, session "New Frontiers: the future of European fintech hubs", in English.

While on November 4, Fintech District will participate as a speaker in the session "A Crypto for Friend" moderated by Feduf.

Finally, **Alessandro Bocca, CEO of Axerve**, will be one of the speakers at the workshop "E-commerce: is competing still possible?" scheduled for November 3 at 2 p.m. Axerve will also participate in the sessions "Buy now pay later: how consumer credit is revolutionizing e-commerce" on November 4 at 3.30 p.m. with speaker Alessio Damonti, Deputy CEO of Axerve and "Payments and shopping experience: where value is created" on November 5 at 9.30 a.m.

Fabrick is the open financial ecosystem created to promote Open Finance through the development of innovative digital services, based on the logic of Open Banking. The reality, which operates at an international level, allows collaboration between different players to co-create solutions that meet the increasingly evolving needs of end users. Founded in June 2018 for having foreseen well in advance the advantages that the technological and regulatory revolution could have brought to all the actors of the system, Fabrick supports its clients - banks, institutions, fintechs, large corporations, SMEs, top merchants and startups operating in any sector - in the development of Open Banking and Open Payments projects and by providing consulting. The company has obtained authorization from the Bank of Italy to operate as a Payment Institution, thus adding a further step to its role as enabler of new business models. It can in fact exercise the activities of Account Information Service Provider (AISP) and Payment Order Disposition Service Provider (PISP) to propose "turnkey" solutions and make its license available to customers in "as a service" mode. www.fabrick.com
